Evolution: Bed for beauty centre

Evolution is the new professional electric treatment bed by Medical and Beauty, designed to elevate every facial and body treatment with comfort, stability, and total customization.
Equipped with electric height adjustment and a three-joint mattress controlled via a hand switch, it allows operators to easily find the ideal position for both practitioner and client. The two-column structure ensures maximum stability even during massages and aesthetic treatments, while the high-density memory foam mattress with a face hole and closure pad guarantees superior ergonomics and comfort. An optional paper roll holder adds even more convenience during treatments.
The mattress upholstery and lifting columns can be customized with a wide range of finishes at no extra cost, as can the footrest and decorative side panels, available in six different finishes. The mattress is available in widths of 70, 80, or 90 cm to suit every professional requirement.
Made in Italy design, advanced technology, and compositional freedom for a treatment bed that enhances any space.
